SKILLS

PROGRAMMING
- C++
- C

DEVELOPMENT
- JavaScript
- ReactJS
- HTML
- CSS
- NodeJS

Familiar:
- SQL
- MongoDB
- Mongoose
- MySQL
- Python

CERTIFICATES

COURSES :
Kaggle:// Intro to Machine Learning
Udemy:// Web Development Bootcamp

PROFILE

A budding programmer with special interest in Competitive Programming and Web Development. Agile minded and dedicated with a stronghold in analytical thinking and problem solving, looking for a suitable position to utilize and improve my skills.

PROJECTS

CODE EDITOR | Codepen Clone - Frontend

An interactive Frontend website which helps to write and edit code for various programming languages using Javascript , HTML and CSS. ReactJS is the major framework used here.

SENTIMENT ANALYSIS | Machine Learning

It refers to the analysis of textual content to determine the user's emotions , sentiments, opinions and feelings. NLTK is used as text processing of text datasets. Here, we collect the datas and then it will be processed after that it extracts some unique features to visualize and output the emotions/sentiment.

DETECT PESTICIDES IN VEGETABLES | IOT Technology

A novel non-destructive approach is developed to detect harmfulness due to pesticides of fruits and vegetables using photo-sensitive effect(LDR photo-sensitive module) and Internet of Things.
